RESOLUTION ON THE REPORT OF THE OPERATIONS OF THE DEPARTMENT OF AGRICULTURE, BENGAL, FOR THE YEAR 1925-26.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

Agriculture.

CALCUTTA, THE 27TH APRIL 1927.

RESOLUTION—No. 31 T.-A.I.

Minister-in-charge : The Hon'ble Hadji Mr. A. K. Ghuznavi.

READ—

The report of the operations of the Department of Agriculture, Bengal, for the year 1925-26.

Administration.—Mr. Finlow, the Director of Agriculture, was on leave from 2nd July 1925 to 18th February 1926 when Dr. Hector, First Economic Botanist, officiated as Director. The Assistant Director of Agriculture Mr. McLean went on eight months' leave on the 28th February 1926 and was succeeded by Mr. Smith. Mr. A. R. Malik held charge of

the office of the Deputy Director of Agriculture, Northern Circle, for eight months from 15th March 1926. Mr. J. N. Sarkar continued to officiate as Deputy Director of Agriculture throughout the year.

2. **Agricultural Education.**—The scheme for agricultural education in High English and Middle English schools on the Punjab lines, details of which are given in the report, was finally approved by Government after the close of the year. Funds for the purpose have been provided in the budget for the current financial year, and it is hoped to give effect to it as soon as possible.

With regard to the scheme for higher agricultural education at the proposed Agricultural Institute at Dacca, it has now been definitely decided to proceed with the scheme and to construct the necessary buildings up to the minimum requirements as soon as funds are available. As the Royal Commission on Agriculture is expected to make valuable suggestions in regard to the scheme, it is proposed to await the recommendations of the Royal Commission with regard to such questions as the standard of qualification for admission and collaboration with the Dacca University in the matter of the teaching of pure science to the pupils of the institute.

It is regrettable that the secondary agricultural school at Dacca is languishing for want of popular support. In the resolution on the departmental report for 1924-25 a hope was expressed that every possible step would be taken to make the school more popular and to attract a sufficient number of students to it. The Hon'ble Minister considers that it is now time for reviewing the position of the school and for taking measures for increasing the usefulness of this institution. He also trusts that the annual report of the Director of Agriculture will in future contain a detailed account of the working of the school.

3. **Research and Experiment.**—On the research side interesting experiments are being carried on in the Botanical (including Mycology and Entomology), Fibres, and Chemical sections.

In the Botanical section improved races of departmental paddy have been evolved, and the problem of securing their general adoption in the agricultural practice in the localities suited to them has been engaging attention. Unlike jute seed the distribution of paddy seed is attended with difficulties. In the first place, the cultivators keep their own seed and do not obtain a supply every year; secondly, as several varieties of different durations and qualities are grown side by side, the seed rapidly gets mixed; and thirdly, owing to prohibitive cost of transport it is not possible to move paddy seed to any distance. To solve this problem a scheme has been inaugurated for the organisation of small paddy seed farms through the agency of agricultural associations or influential cultivators. It is proposed to supply to these seed farms fresh seed every alternate year from Government farms and to multiply it for distribution in the locality. Thirteen paddy seed farms were introduced in the districts of Dacca and Mymensingh during the year. A commencement has also been made in other districts for which suitable departmental races are available.

It is reported that a fungus (*Phytophthera*) has been definitely identified as the cause of the betel-vine disease; and it is hoped that it will now be possible to devise effective means for combating the disease which has done considerable damage to the betel-vine crop in different parts of the province.

As a result of prolonged investigations it has been discovered that organic refuse, *e.g.* sugarcane pith and leaves, weeds, waste straw, etc., when treated with cattle urine becomes immediately useful as plant food, being slightly richer in nitrogen than rotted cowdung. Seventy-three tons of this artificial farm yard manure have been prepared at the Dacca Farm out of the farm refuse.

In the Chemical section sugarcane and tobacco continue to receive attention. Yellow *Tanna* cane and C. O. 213 have continued to spread. During the year demonstrations of yellow *Tanna* were made in sugarcane growing localities with a view to introducing this variety in those areas. In the Jessore district demonstrations were given, on a working scale, of the value of liming the collecting pots and the efficiency of the McGlashan furnace for boiling date palm juice.

In the resolution on the annual report for 1924-25 a reference was made to the steps taken for the collection of data with a view to drawing up a scheme of campaign against the water hyacinth pest. The necessary data have since been collected; and experimental clearance operations have been undertaken in the Madaripur *Beel* area with a conveyor specially constructed for the purpose. The question of the policy to be adopted in dealing with the weed is now engaging the attention of Government.

4. **Improvement of the farming industry, agricultural stations and farms: Animal husbandry: Agricultural engineering and supply of improved seed.**—During the year a commencement was made with the construction of buildings for the Malda and Rangamati farms. The Dinajpur farm buildings were made over to the Department in September 1925, while those of the Mainaguri farm were handed over after the close of the year.

An area of about 450 acres of land at Nadia known as the Company Bagan was taken over from the Krishnagar Municipality after the close of the year and placed in charge of the Collector as a *khas mahal* pending its utilisation for the purposes of the Agricultural Department. Schemes for the establishment of a district farm as also a dairy farm in this area are at present under consideration. In the meantime it has been proposed by the Director of Agriculture to let out the area on the *barga* system which is in vogue in the Kishoreganj farm for the cultivation of improved crops suitable for the tract. A scheme for the establishment at Baraset of a district farm for the 24-Parganas is also under consideration.

In the district farms at Suri and Bankura important researches on paddy, cotton, rabi pulses and oil-seeds as well as fodder crops are being conducted with a view to evolving crops suitable to the rolling upland tract in western Bengal.

In the Kishoreganj farm which is run in collaboration with cultivators on a modified *barga* system, a net profit of about Rs. 2,000 was obtained during the year at a total expenditure of Rs. 2,570 including a capital expenditure of Rs. 1,087.

The continued growth of private farms in the Presidency, Burdwan and Rajshahi Divisions, which numbered altogether 100 in the year, affords a striking proof of the success achieved by the department in introducing scientific agriculture in the province. These farms are conducted under the advice of the officers of the Agriculture Department.

At the Rangpur cattle farm as also at the Dacca farm the usual programme for the improvement of the breed of cattle was carried on. A Live-stock Expert has been recently appointed. It is hoped that under the expert guidance of this officer it will now be possible to make an advance in the direction of popularising the pedigree bulls evolved by the department. The Hon'ble Minister in charge attaches great importance to the improvement of the breed of cattle in Bengal on which the improvement of agriculture largely depends, and he will watch with interest the activities of the Live-stock Expert towards that end.

With the provision of funds in the current year's budget for the appointment of an Agricultural Engineer, it is hoped to tackle the important problem of agricultural engineering in the near future.

5. **Seed distribution.**—Owing to the high prices of jute there was a heavy demand for departmental jute seed which it was found difficult to meet. During the year 110 tons of departmental jute seed were sold by the Agent for the sale of departmental seed.

With the object of securing a rapid extension of the use of the improved races of jute the London Jute Association made a generous offer of a contribution of £1,500 for the free distribution of departmental jute seeds. This offer was accepted by Government and the distribution of seed took place early in 1927.

6. **Propaganda and dissemination of agricultural information.**—The Hon'ble Minister is gratified to observe that the efforts of the department are proving successful in gradually winning public appreciation of the value of its work. Extensive propaganda is, however, necessary in order to induce a wider adoption of the improved methods recommended by the department; and with this end in view Government have recently decided to appoint seven additional district agricultural officers in the districts of Chittagong, Nadia, 24-Parganas *cum* Howrah, Khulna, Midnapore, Noakhali and Hooghly as soon as funds become available. The Hon'ble Minister also notes with satisfaction that several District Officers, notably those of Nadia, Malda, Faridpur, Rangpur and Hooghly, have given their special attention to the agricultural needs of the districts in their charge; and that every opportunity is taken of collaboration between the sister departments of agriculture and co-operation.

7. **Sericulture.**—The main work of the Government nurseries is the issue of disease-free seed of *Nistari* and *Chotopolu*, while in the Berhampore central nursery the rearing of *Nistari* stock for supply to other nurseries and to selected rearers was undertaken in addition to the supply of seed to the professional rearers. The nurseries produced 21,262 *kahans* of seed cocoons and the receipts amounted to Rs. 71,242. The decrease in receipts is attributed to a fall in the price of cocoon consequent on the slump in the silk market.

The policy of the propagation of disease-free seed through the agency of selected rearers under the departmental supervision was continued. During the year the selected rearers are reported to have raised between 18,000 to 19,000 *kahans* of seed.

Satisfactory results were obtained from the demonstration and propaganda work undertaken in certain villages in the districts of Malda, Rajshahi, Murshidabad and Birbhum towards the introduction of improved methods and the production of disease-free seed. An interesting development in the revival of the silk industry took place in the Bankura district where departmental activities have now been extended to 53 rearing villages.

8. The Government of Bengal (Ministry of Agriculture) acknowledge the good work done by departmental officers in the administration of the department, during the year of report. Their thanks are also due to the District Officers and non-official gentlemen who have assisted the department in various ways in furthering the agricultural development of the province.

By order of the Government of Bengal

(Ministry of Agriculture),

Secretary to the Government of Bengal (offg.).

RESOLUTION ON THE REPORT ON THE WORKING OF THE CO-OPERATIVE SOCIETIES IN BENGAL FOR THE YEAR ENDING 30th JUNE 1926.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

Co-operative Branch.

DARJEELING, THE 26TH APRIL 1927.

RESOLUTION—No. 27T.—A.I.

Minister-in-charge : The Hon'ble Hadji Mr. A. K. Ghuznavi.

READ—

The Report on the working of the Co-operative Societies in Bengal for the year ending 30th June 1926.

Administration.—Rai J. M. Mitra Bahadur held the office of Registrar throughout the year. There was no alteration in the strength of personnel of the superior controlling staff during the year. Since its close, separate office establishments have been provided for the Assistant Registrars, Chittagong and Burdwan Divisions. The headquarters of the former have been removed to Chittagong while the question of fixing a suitable headquarters for the latter within his division is under consideration. The new arrangement should make for efficient working in these two divisions. The question of strengthening the Inspecting staff of the department is now under examination in consultation with the Registrar. A temporary post of Inspector has been sanctioned since the close of the year for the organisation of societies for the consolidation of holdings. Twenty-five posts of auditors were added during the year, and since its close three more posts have been sanctioned for the audit of the anti-malarial societies which have been exempted from the payment of audit fees, bringing up the total number of auditors to 98. Further strengthening of the audit staff has been deferred until it is found whether the proceeds of the audit fees after meeting the increased expenditure on account of the revision in the pay of auditors will leave any margin for the entertainment of additional staff. A scheme for the reorganisation of the service of auditors is under consideration, and provision has been made in the budget with a view to its introduction as soon as the reorganisation is sanctioned.

General progress of the movement.—The number of societies of all kinds increased from 11,081 to 12,819 or by 15·6 per cent., their total membership from 385,599 to 453,031 (17·4 per cent.) and their total working capital from Rs. 6,18,38,550 to Rs. 7,52,77,018 (21·7 per cent). The relatively larger accession to membership as compared with the addition to the total number of societies is an evidence of the vitality and growth of the older Societies. The expansion in the working capital, which more than kept pace with the increase in the number of societies and their membership, is also a satisfactory feature. Government share the Registrar's satisfaction at the striking progress of the movement during the last quinquennium in which period the number of societies, their total membership, and the actual cash employed in the movement have nearly doubled. The Hon'ble Minister trusts that along with this rapid expansion there will be no relaxation of efforts for the internal improvement of the societies and for the consolidation of the position so far gained.

I. PRIMARY SOCIETIES.

(a) Agricultural Societies.

(*i*) **Credit Societies.**—The Agricultural Credit Societies now constitute 87·3 per cent. of the total number of societies in the province. The improvement noticed in the preceding year in the working of these societies continued during the year under report. The collections were better than in the preceding year and amounted to Rs. 79·85 lakhs or 45·5 per cent. as against Rs. 62·71 lakhs or 41·8 per cent. The proportion of overdues declined to 24·1 per cent. and is reported to have been the least in the last decade. The overdues are, however, still large enough to require continued attention. A satisfactory feature of the working of these societies is the steady increase in the society-owned capital which has more than doubled during the last quinquennium.

(*ii*) **Agricultural purchase and purchase and sale societies.**—During the year under report considerable progress was made in organising societies for the purpose of carrying on the sale of agricultural produce on a large scale. The problem of joint sale of agricultural produce is full of difficulties, particularly in the case of jute, owing to the speculative element in the trade and the rapid fluctuations in prices. These difficulties, however, have not deterred the department in its efforts to overcome them, and as a result of the experience gained in connection with the working of the earlier societies, new societies are now being formed on a sufficiently large scale to handle a large quantity and to guarantee quality. The number of sale societies rose from 33 to 53, their membership from 5,337 to 9,565, their total working capital from Rs. 94,419 to Rs. 2,34,828. The jute sale societies have set up pressing machines, engaged competent managers, and have, since the close of the year, been carrying on a large business direct with the mills and exporting firms in Calcutta. They guarantee a good standard of assortment and packing under proper supervision. The Hon'ble Minister is pleased to note that these societies have made a good beginning and have within this short time been able to establish their marks with the mills. Paddy sale societies have also made satisfactory progress. In order to assist the sale organisations Government have undertaken to bear the cost of the supervising staff of several new societies of this class in their initial stages and to give a grant towards meeting the cost of a central godown established in Calcutta for the sale of the stock of the paddy sale societies, for the first three years.

(*iii*) **Irrigation societies.**—The co-operative irrigation movement continued to progress though no new stream schemes were initiated during the year. The number of irrigation societies increased from 268 to 350 and the total area irrigated from 62,149 to 70,672 bighas. As usual the expansion occurred mainly in the districts of Bankura and Birbhum.

(*iv*) **Co-operative agricultural associations.**—The number of agricultural associations rose from 20 to 21, their membership from 325 to 8,249 and their total working capital from Rs. 8,381 to Rs. 31,024. They have not yet emerged out of the stage of experiment, but Government trust that their working will continue to receive the special attention of the department.

(*v*) **Production and sale societies—Milk societies.**—The number of these societies increased from 63 to 74 out of which 71 are in the Barasat area and are federated to the Calcutta Milk Union. The Union was able, through the financial assistance received from the Calcutta Corporation, to erect a fine and capacious Dairy fitted up with up-to-date plants for the purpose of pasteurising and treating milk. The milk societies have been able to secure better terms for the producers who are primarily agriculturists and with whom cow-keeping is a secondary occupation. They have stimulated production, and during the last quinquennium the total yield has increased more

than three times while the outturn per member has doubled. The Union has also rendered considerable assistance in solving the difficult problem of pure milk supply to the city of Calcutta. The Hon'ble Minister notes with pleasure the excellent progress achieved by the milk union and its affiliated societies during the year of report.

(*iii*) **The Naogaon Ganja Cultivators' Co-operative Society, Limited.**—This Society maintained its prosperity and continued to invest a part of its profits in schemes of public utility.

(*b*) **Non-agricultural societies.**—Of the societies in this class, weavers' societies now number 233. Among these the Bagorhat Co-operative Weaving Union has started a cotton mill. The organisation of a Silk Union at Malda with a view to rehabilitating the silk industry on a co-operative basis was initiated during the year. The stores movement showed a further weakening and the total number of societies of this class fell off from 71 to 57.

A noteworthy development during the year was the organisation of five womens' co-operative societies (Mahila Samitis). The progress of these societies will be watched with interest.

II. CENTRAL SOCIETIES.

(*i*) **Industrial unions.**—There was no increase in the number of these Unions. The prosperity of the Dacca Union, which is now the foremost society of this class was fully maintained. The Bankura Union experienced difficulty in disposing of its stock.

(*ii*) **Central banks.**--There was an increase of 7 central banks during the year bringing up the total number to 98. The total number of societies affiliated to them rose from 9,746 to 11,152, paid up share capital from Rs. 25·29 lakhs to Rs. 29·57, reserve funds from Rs. 11·41 lakhs to Rs. 13·20 lakhs and their total working capital from Rs. 2·05 crores to Rs. 2·49 crores. The total collection from societies rose from Rs. 85·47 lakhs to Rs. 2·05 crores. The central banks maintained sufficient fluid resources and there was a general improvement in their working.

(*iii*) **The Bengal Provincial Co-operative Bank, Limited.**—The apex bank more than maintained its prosperity. The volume of its business was almost double of that in the preceding year and it had a turnover of Rs. 5 crores during the year as against Rs. 2·5 crores in the preceding year. Its profits rose from Rs. 69,646 to Rs. 1,45,645. The Hon'ble Minister has much pleasure in acknowledging the public spirit of Mr. B. N. Sircar, who has, at considerable sacrifice of his time, held the post of Chairman of the provincial bank during the last two years.

(*iv*) **The Central Co-operative Anti-malarial Society.**—The expansion of the anti-malarial movement was maintained during the year under report. The number of societies affiliated to the Central Society rose from 433 to 869 out of which 263 societies or 30 per cent. were registered as against 98 societies or 22·6 per cent. in the preceding year. It is hoped that the proportion of registered societies will show a further increase. These societies have been generally doing useful work in promoting rural health and sanitation through co-operative effort.

(*v*) **The Bengal Co-operative Organisation Society, Limited.**—This Society was reorganised and registered during the year. Over 6,500 societies or over 50 per cent. of the societies in the province have been already affiliated to it. Government sanctioned an additional grant of Rs. 7,000 to the society in order to enable it to carry on its work properly, to improve the two periodicals published by the society, to arrange for the delivery of

lectures on co-operation both in Calcutta and in the mufassal, to establish a free reading room and library of co-operative literature in the neighbourhood of College Square, and to organise co operative training classes. Action in most of these directions appears to have been taken but the training classes have yet to be established. The Hon'ble Minister trusts that the training classes will soon be started and that the society will succeed in realising its aim of being a real federation of the societies in the province.

The Government of Bengal in the Ministry of Agriculture have great pleasure in acknowledging the assistance rendered to the movement by various District and Subdivisional Officers mentioned by the Registrar and by all non-official gentlemen who are definitely engaged in Co-operative work or who have from time to time helped in the spread of the movement. The thanks of Government are due to Rai J. M. Mitra Bahadur for his efficient administration of the department during the year. The names of the other officers of the department commended for good work have been noted

II. **Capital and Income.**—The capital of the Institution is Rs. 10,46,200 in 3½ per cent. stock-certificate of the year 1865, and in addition there are temporary investments from savings which stood at Rs. 28,200, as in the previous year, all of them in Government securities. The annual interest is Rs. 37,929 which is banked with the Imperial Bank of India. The year opened with a balance of Rs. 14,643-15-3 and closed with one of Rs. 14,640-15-10.

III. **Election to Vacancies, etc.**—(1) The annual election of wards was held on Tuesday, the 14th December. There were only four actual vacancies, but, in accordance with a scheme put forward by Father T. Van der Schueren and approved by the Governors, so as to ensure a fixed number being elected every year irrespective of vacancies, eight vacancies were advertised and 77 applications were received. These were considered by a Sub-Committee consisting of (1) the Lord Bishop, (2) the Rev. D. H. Manley, (3) the Rev. Father F. Keyeux, S. J., and (4) Mr. Maurice Remfry; and on their recommendation eight girls were elected. Of these four were placed in the Loreto Convent, Entally (1st boarding school), two in the Calcutta Girls' High School and one in St. Thomas' School One of the girls elected has not yet joined a school as the Doctor considers her unfit for school at present.

(2) Of the 4 wards withdrawn during the year, 2 had attained the age-limit of 17, one was withdrawn by her mother as she was constantly ill and another was withdrawn as the circumstances of her parents had improved.

(3) Of the girls who had been withdrawn during the preceding year, and in respect of whom reports have been received during the year under review, one was completing her course in shorthand and typing, another is employed at Messrs. Whiteaway, Laidlaw & Co., and one is employed as a stenographer in an Engineering Firm. Two girls are married.

(4) At the close of the year there were 104 wards on the rolls against 99 in the previous year. They were distributed as follows :—

Loreto Convent, Entally	1st Boarding 32 2nd Boarding 23	55
Calcutta Girls' High School	...	12
Pratt Memorial School	...	5
St. Thomas' School	...	12
St. Paul's Mission Home	...	5

St. Mary's Convent, Naini Tal	...	3
Bishop Westcott School, Ranchi	...	1
Queen's Hill Girls' School, Darjeeling	...	1
	Total ...	104

(5) The following table affords particulars as to the class and religion of the wards at the close of the year :—

Class	Roman Catholic	Church of England	Non-conformist	Total
1. Orphans, or deserted by their parents ...	19	11	1	31
2. Fatherless or motherless or deserted by their fathers or mothers ...	35	16	6	57
3 Those who have both parents alive ...	7	6	3	16
Total ...	61	33	10	104

(6) The health of the wards was generally satisfactory, but two wards, who were in poor health, were transferred to a school outside Calcutta.

IV. **Education and maintenance.**—(1) The nature of the education given to the wards was that prescribed for Higher Grade Schools under the Code of Regulations for European Schools in Bengal, and in few cases that for Secondary Schools.

(2) The Governors are anxious that their wards should not be allowed to drift when they leave school, and have accordingly asked the Visiting-Governor to make, in consultation with the school authorities, some definite proposals, where this seemed desirable, in regard to wards who have attained, or are about to attain, the age of 15, so that the last two years of their school life may be spent to the best advantage and be a preparation for earning a living. Two wards were, on the recommendation of the Visiting-Governor, transferred from a Secondary to a Higher Grade School as they were found unfit for secondary education.

(3) Two wards were sent up for the Junior Cambridge Local Examination in December 1925, one went up for the School Supplementary Examination, one for the Trinity College of Music (Preparatory), and two for the London Institute Examination (Needle Work). All of them passed. Some wards appeared at the Cambridge Local Examinations held in December 1926. The results are not yet known.

(4) Under the rules a ward is not ordinarily allowed to remain on the Fund after the age of 17, when an outfit grant of Rs. 100 is generally given, on application, to enable her to make a start in life. In cases where wards wish to be trained as teachers and have the support of the school authorities, or where some special training is recommended, or are preparing for higher examinations, some extension of the period of benefit is generally allowed. No wards were granted extensions during the year under review.

(5) The monthly average cost for the education and maintenance of each ward amounted to Rs. 26-3-6 against Rs. 25-5-6 in the preceding year.

(6) The amounts paid under the different heads of expenditure were as noted below :—

V. **Inspection.**—The Rev. D. H. Manley was appointed Visiting-Governor for the first half, and Mr. W. F. Papworth for the second half, of the year. Mr. Manley, who visited all the schools in Calcutta having Bruce Wards, reported that the wards in general seemed in good health and that the class results, as a whole, were satisfactory. Also that many of the older girls looked forward to learning shorthand, typing, teaching and nursing. Mr. Papworth also visited all the schools in Calcutta having Bruce Wards. He found that the wards have generally kept good health, and he noticed an improved scale of diet at the Loreto Convent, Entally. He found cases where there had been considerable delay in sending back wards to school after the holidays, and suggested that schools should be called upon to notify immediately to the Governors the names of wards who do not return punctually to school after the holidays. Several other suggestions were also made by him.

VI. **Meetings.**—Four meetings were held during the year, but there was no resolution of general importance calling for special mention.

E. F. OATEN,

Honorary Secretary to the Governors.

During the year under review the Commission held 12 meetings, expended much time and thought in keeping abreast of the general trend in the scientific use of fuel and the latest achievements in industrial and domestic smoke abatement. In view of the high death-rate in Calcutta from respiratory diseases, an important cause of which is the smoke nuisance, the Commission appointed Sub-Committees for the re-organisation of the Department. The recommendations of the Sub-Committees were generally accepted and have resulted in a substantial increase of efficiency of the Department. The average emission from each factory chimney last year was the equivalent of 1·19 minutes of dense black smoke per hour. This year it has been reduced to ·98 minutes, which is the lowest on record.

Index figures are never convincing, but the result is that the daily emission of black smoke has been reduced by nearly 3,000 minutes. In 1906, when the Commission assumed control, the daily emission of black smoke was 200,000 minutes. It is now within 15,000 minutes. To maintain, and strain to improve on this reduction requires continuous and skilled endeavour. Should the efforts of the Commission relax, or cease, there would quickly be a return to the 1906 conditions with its filthy and poisonous atmosphere.

Deaths and Destruction of Property caused by the Smoke Nuisance.

One-fifth of the total death-rate in Calcutta is due to diseases of the breathing organs. Medical authorities state that the smoke nuisance increases the death-rate from such diseases in all stages of life, lowers the public health and renders it susceptible to other diseases.

The smoke nuisance reduces the fertility of the soil by over 50 per cent. and poisons the food-supply. Cows fed on grass or hay grown in smoke-infested districts retain their economic milk-giving qualities for a very short period, and this increases the price of the milk. The milk has a low ratio of lime to phosphoric acid and children fed on such milk suffer from rickets. The sulphurous gases of the smoke nuisance corrodes masonry buildings. This damage is not limited to smoky cities, but extends far into the surrounding country, as the wind carries the corroding gases. It also destroys the property of the community. In Manchester the yearly laundry bill for this alone is nearly 38 lakhs of rupees. The total annual cost of the smoke nuisance to Great Britain is 60 crores of rupees.

The profession of combustion engineering, which is the product of the last 2 or 3 decades, has provided the means for the economic solution of smoke abatement. In the last 2 centuries of intensive factory industrialism smoke nuisance has been responsible for many millions of stunted lives and a C. 3 industrial population, which, to be maintained at that, had to be continuously reinforced with fresh material from the rural districts.

There being then, apparently, no solution, the sufferers advocated removing the factories outside town limits. This proposal has been discussed, from every angle throughout the world. Apart from the fact that the operatives would still work in the smoky atmosphere, it is not accepted as a general solution, as, among other reasons, the wind in a favourable direction carries the impurities into the town. A local example of this occurs when the impurities from the mills beyond the town limits, both to the south and north, are discharged into Calcutta, as the wind has a northernly or southernly drift. Much progress has been made since then, and such ideas are not considered as practical politics. If they were, and applied locally, the steamers that now frequent the port would not be permitted within, say, 20 miles of Calcutta.

In the course of time it was realised that the domestic smoke nuisance was the greater offender. The endeavours of the Commission to re-organise the Department so that it could at least make a beginning on the domestic and kindred low-lying smoke, which is so deadly to the public health of Calcutta, will be reviewed under its appropriate section.

Improved Organisation for detecting Offenders.

The first step in smoke abatement is to know the quantity of smoke emitted, the chimneys that emit it, and to get into touch with the installations. During the year under report the Chief and Assistant Inspectors made 18,825 observations of smoke and 5,023 inspections and tests of installations for instructional purposes, against 14,442 and 3,710, respectively, for the previous year.

The next step is to secure action by the owners to prevent the repetition of offences. The Commission report offences to the owners for their departmental action, provided such action is satisfactory. The Commission is prepared to show that smoke can be reduced with economy, or indicate the defects that prevent this. During the year 4,170 such offences were reported, against 2,759 for the previous year, and the Commission gratefully acknowledge the beneficial results of the action taken by the owners which was generally taken at once. Statutory warnings were served in 22 cases, against 12 for last year. There were no prosecutions, against 5 for the previous year.

Smoke and Waste of Fuel generally due to Ignorance.

Usually there is a larger field for saving in the operation of the boiler than in that of the engine. The modern methods of saving coal, which are similar to those of scientific smoke abatement, requires skilled knowledge. Everyone would like to reduce smoke and save

money, but the great majority apparently do not know how it can be done. Obviously, it would greatly improve matters if all concerned were instructed in the correct methods of securing this. The instructions must appeal to the Indian fire-men, some of whom are capable men, but the generality form a floating population, ever changing, and spending part of their time in agricultural pursuits. The Commission are considering the preparation of simple directions, in English and the vernacular, for saving fuel and reducing smoke, with pictures that appeal to the brain through the eye and carry conviction without mental effort, showing, among other matters, the losses due to bad firing, which are caused by the gases not being properly mixed and burned, and by the excessive air leaking through thin parts or holes in the fires

Improved Methods are Gilt-edged Investments.

One of the large stations in Calcutta adopted improved methods, and engaged Combustion Engineers. The annual saving in the fuel bill is about 3 lakhs of rupees, and the chimneys are now practically smokeless. In another station, where matters were brought to a head through the improved methods of smoke observation, the owners are considering modernisation, estimated to cost about Rs. 83,000. The annual saving is expected to be Rs. 62,000.

Complaints from the Public.

The public continues to apply freely for relief to the Commission. During the year 48 complaints were received, against 59 for the previous year. In some cases the complaints were petty, but relief was given wherever possible. In addition, many references were received from various municipalities, necessitating in many cases careful tests and lengthy observations; also requests for assistance were received from districts outside the controlled area, in which cases advice was forwarded.

Smoke from Steamers and Other Marine Craft.

Steamers and other marine craft in Calcutta are generally moored near residential houses, through which passes the smoke, soot and sulphurous gases from their low funnels. The conditions in a marine stokehold are always trying, sometimes unnecessarily so through faults in the original design.

In a steamer that gave excessive smoke it appeared that superheaters have been put inside the already small boiler tubes, destroying the draft and reducing the steaming capacity of the boilers. At sea it appeared to have been a continual struggle for steam with black smoke all the way from port to port. Had arrangements been made, as they should have been, to overcome the draft resistance, the economy and steaming capacity of the boilers would have been improved, the smoke would have been reduced and the inhuman stokehold conditions under which the Engineer officers and the stokehold crew operate would never have existed.

In two steamers, each fitted with forced draft and built by firms of high repute, the chimneys were too small to remove the hot gases, making the stokeholds unbearably hot in the tropics. These steamers are now working with natural draft, the parts of the original forced draft equipment having been removed, or lost.

During the year a large fleet, that has its headquarters in Europe, gave considerable trouble as regards smoke. To secure compliance with the Act by prosecutions in detail would have been unsatisfactory. The home owners were requested to arrange that the fleet should comply with the smoke requirements, on the usual understanding that in cases of difficulty the Commission would reduce the smoke economically, or indicate the defects that prevented this. This fleet now complies with the requirements of the Smoke Act.

A Jute Mill Lesson, Daily Coal reduced from 60 to 28 Tons.

Recently in a large jute mill in Calcutta, the old battery of hand-fired Lanchashire boilers were replaced with new ones of the same size and type. The new boilers were fitted with air pre-heaters for heating the air used in burning the coal, and steam super-heaters for drying the steam. Arrangements were installed for indicating the drafts and temperatures throughout the installation, and the quantity of steam produced. But the same old steam engine was retained.

This arrangement reduced the daily coal from about 60 to 38 tons—a handsome reduction—and was what could reasonably be expected from such pre-heating and super-heating. The next stage was interesting, and brought out the high technical abilities of the Engineer in developing the scientific utilization of fuel. Combustion indicators were fitted to arrive at the correct fuel-air ratio, an induced draft fan was fitted to increase and ensure the better regulation of draft, the amount of air delivered above the furnaces was increased, investigations were made to secure the highest furnace temperatures and the best mixing of the furnace gases, all of which, in the aggregate, reduced the consumption to 28 tons.

This mill now burns an inferior grade of coal, and through the difference in price and the smaller quantity used, the savings will recover the cost of the whole plant within 2½ years The poisonous smoke from this chimney at one time stretched across Calcutta, shedding impurities all the way. It is now practically smokeless. And, with the better combustion, the small quantity of smoke now emitted is comparatively harmless to public health. A feature of this achievement is that it has been effected by hand-firing, with Indian firemen. What has been done in one installation can be done in others, both land and marine.

Other Methods of using Cheap Coal.

About the same time that this air pre-heating installation was put down, another jute mill of about the same size also fitted an installation for burning cheap coal. The principal features of this installation are steam jets in the ash-pit and specially arranged fire-bars. This installation financially justifies itself, as with the improved draft caused by the steam jets a cheaper grade of fuel is used, though there is practically no reduction in the total quantity. As there is no arrangement for air distribution and mixing of the gases, there is always trouble with smoke. This mill uses about 50 tons a day, against 28 tons for the pre-heated air installation.

Latest Methods of using Cheap Coal.

Prior to this air pre-heater installation, the jute mills on replacement, or reconstruction of the power plant usually adopted water-tube boilers as giving the best results. Since this installation has given as good results as those from water-tube boilers, there appears to be a general return to Lancashire boilers, as they are cheaper, less complicated, and having more water space and are better suited to Indian labour conditions.

In a large jute mill that is being reconstructed, the owners have decided to adopt steam turbines of the latest type, suitable for bleeding the steam for process work, with air pre-heaters, economisers, superheaters and Lancashire boilers, but with important modifications. In long Lancashire boilers, it is realised that the last 5 or 6 feet, at the rear end, is not of much use for extracting heat and making steam. Accordingly, in the new installation, the boilers are much shorter than the standard type The gases leave the boilers at a higher temperature than usual, and the heat is more efficiently extracted by the better arranged surfaces of the steam super-heater, economizer and the air pre-heater, which is in accordance with the experience of most modern practice. It is expected that waste gases as they enter the chimney will be under 300 degrees F., which for the tropics will be a high class achievement.

Installations approved by the Commission.

Scientific smoke abatement and economy require balanced plants. It would be unsatisfactory in a boiler plant where the boilers are large enough, if the draft is insufficient to take the required work from the boilers, and it would be as unsatisfactory where the draft is ample, if the boiler is too small to produce the required steam. Under the Act new plants installed or alterations made to the old must be approved by the Commission. During the year the Commission examined and approved 58 plans, of which 54, covering nearly all types of industrial furnaces, were made in the office of the Commission. The Commission's wide experience was always at the disposal of the owners.

Reduction of the Smoke Nuisances by Electrical Appliances.

Electric appliances, both for commercial and domestic use, should be encouraged as permanent remedies for atmospheric pollution caused by smoke. During the year 676 motors, equivalent to 4,456 horse power, were connected to the system of the Calcutta Electric Supply Corporation, Ltd. There are now approximately 5,432 motors, equivalent to 51,990 horse power, connected to the system.

During the year the Corporation brought into operation the new power station at the southern end of the system, which increases reliability, as should an accident occur at one station the other takes up the load. The total power installed, and there is more on order, makes ample allowances for casualties. In the same manner the distribution system is designed to maintain an uninterrupted service.

Gas Appliances solve the Domestic and Other Low-lying Smoke Nuisances.

The most deadly of the smoke nuisances is the low-lying smoke discharged at ground level from over a quarter of a million domestic fire-places, tens of thousands of tea-shops, eating-houses, sweetmeat-shops, etc., which for several hours—particularly during the cold weather evenings—enshroud localities in a poisonous, suffocating smoke pall through which it is impossible to see a few yards ahead. This smoke has no connection with ordinary factory smoke, for it is there just the same on Sundays and holidays when the factories are closed.

In European cities such smoke is discharged at an altitude of 50 to 100 feet, or even higher, depending on the height of the buildings, each of which have suitable chimneys, and, ordinarily, there is a zone of comparatively pure air near the ground for breathing purposes. But in Calcutta all such smoke is discharged at ground level; the community live in and have to breath the corrosive and poisonous sulphurous gases. Until such conditions are improved there can be no reasonable reduction in the death-rate from respiratory diseases, or a reasonable standard of public health secured. The remedy is the use of smokeless gas appliances.

During the year, 1,415 gas appliances—comprising 514 water-heating geysers, 578 cookers, 248 boiling rings, 75 miscellaneous appliances for cooking and industrial purposes—were connected to the mains of the Oriental Gas Co., Ltd., who also state that they have fitted gas appliances in nearly all the smaller buildings erected in the city during the year.

Twelve years ago there were only 100 gas appliances in use; now there are 10,000. These gas appliances prevent the annual discharge of about 1,800 tons of soot and 700 tons of sulphuric gases into the atmosphere of Calcutta.

The High Price of Gas prevents the Use of Gas Appliances.

Cheap gas is a necessity for Calcutta. It says much for the energy of the officers of the Oriental Gas Co. that 10,000 gas appliances have been fitted and kept in service, notwithstanding the high price of the local gas. But there should be over a quarter of a million of gas appliances in Calcutta. If the Oriental Gas Co. could see its way to an immediate and a reasonable reduction in the rates, everyone would use gas. There would be an improved public health, and Calcutta would be well on the way to enjoying the benefits of a smokeless city.

Re-organization of the Department.

The Commission.—To increase efficiency, it was decided that the Commission should be in direct contact with the public and the owners and acquire practical knowledge of the many questions that arise in the art of smoke abatement. Accordingly, it was arranged that each member in turn, once a fortnight, should visit the areas with the Chief Inspector, and that the larger questions should be settled by conferences between the Commission and those concerned. It felt incompetent to deal with the many public health questions that arise, unless with the assistance of a Medical authority. Accordingly, Government was requested to sanction the appointment of the Director of Public Health, Bengal, as a member of the Commission.

The Inspectorate.—The Commission decided to abolish the old system, under which no further reduction in industrial smoke could be effected, and construct a new system under which industrial smoke could be further reduced, and the question of low-lying smoke, which is long overdue and which in the aggregate is more damaging, could be taken up.

The Central Smoke Observatory, from which nearly all the factory chimneys throughout the area can be observed, was brought into operation at the beginning of the year. It was afterwards fitted with a telephone to effect rapid contact with offenders. This system nearly doubled the number of offences detected. It showed that there is a floating force of 40 to 50 chimneys that are always bad—not always the same chimneys, as when some are put right, others get bad; that the Inspectorate could not efficiently control the area and maintain the required contact with installations to effect efficient preventive work in securing plants being kept in such condition and so operated as to prevent excessive smoke; and that more modern means should be provided for locating the defects in the plants. The Commission decided that the Inspectors should be relieved from making smoke observations, as in a modern Smoke Department they should be confined to their legitimate duties of the engineering part of inspection and preventive work, and that the smoke observing should be done by smoke observers. Government was accordingly requested to sanction the appointment of 2 smoke observers who, by a system of watches, will keep the chimneys of factories and steamers continually under observation.

The Office.—To enable the office to deal with the increased volume of work, it was reorganised; unnecessary work was abolished and records were re-arranged to give better control. The system of despatching letters was improved, so as to avoid re-addressing; the use of envelopes was abolished and the cost of postage was reduced.

FINALLY, in this report it is not possible to review all the aspects of the smoke nuisance. The Commission desire to record their grateful thanks to the Sub-Committees for their investigation and to the owners for their co-operation and valuable suggestions and their appreciation of the ability and loyalty displayed by the staff.

GOVERNMENT HOUSE, DARJEELING, *the 10th May 1927.*

No. 503 A.D.—The 9th May 1927.—Whereas the validity of the election of Babu Jatindra Nath Chakrabutty by the Rangpur East (non-Muhammadan) Constituency as a member of the Bengal Legislative Council has been brought in question by an election petition duly presented by Rai Sahib Panchanan Barma, M.B.E., under the provisions of Part VII of the Bengal Electoral Rules; and

Whereas in accordance with the provisions of rule 45 of the said Electoral Rules, the Commissioners appointed for the trial of the said petition have duly submitted their report to the Governor; now, therefore, in pursuance of sub-rule (*3*) of rule 45 of the Bengal Electoral Rules and in accordance with the report of the said Commissioners, the Governor is pleased hereby—

(1) to declare that the said Babu Jatindra Nath Chakrabutty was duly elected,
(2) to direct that the said petitioner shall pay to Babu Jatindra Nath Chakrabutty the sum of rupees five hundred and fifty-nine as costs, and
(3) to publish the said report.

W. D. R. PRENTICE,
Chief Secretary to the Government of Bengal.

Report on the petition of Rai Sahib Panchanan Barma to set aside the election of Babu Jatindra Nath Chakrabutty to the Bengal Legislative Council.

Rai Sahib Panchanan Barma and Babu Jatindra Nath Chakrabutty were the only two candidates for election to the Bengal Legislative Council at the election in November 1926 in the Rangpur East non-Muhammadan Constituency.

Babu Jatindra Nath Chakrabutty was declared elected by a majority of 585 votes.

On 17th January 1927 Rai Sahib Panchanan Barma filed a petition to set aside the election on the grounds that the elected member by himself and other persons on his behalf was guilty of bribery, treating, undue influence and of the publication of false statements regarding the personal character of the petitioner. He also alleged misconduct by the polling officers at Bhurungamari and Lalmanirhat and the filing of an incorrect return of election expenses by Babu Jatindra Nath Chakrabutty.

He submitted a list of instances of corrupt practices and craved leave to supplement these thereafter. The list of particulars is very vague and in many instances fails to comply with the provisions of paragraph 33 (*2*) of the Bengal Electoral Rules and Regulations.

We are of opinion that it would be altogether contrary to paragraph 33 of the rules to permit the petitioner at the hearing to supplement the instances of corrupt practices given by fresh instances. We are further of opinion that the particulars given of treating and hiring of a public vehicle were so vague that to call for further and better particulars would amount to permitting the introduction of fresh instances.

At the commencement of the hearing we called upon the petitioner to furnish further and better particulars in regard to the other matters referred to in the statement accompanying the petition. The petitioner was unable to furnish any particulars as to the second instance of bribery, the second instance of undue influence and sixth instance of undue influence. No evidence was given as to the first, second and fifth instances of undue influence or as to the allegation of improper conduct by the Presiding Officers of Bhurungamari and Lalmanirhat. As to these, we notice that the petition refers to polling officers and the list of particulars to Presiding Officers. The allegation that the polling officer at Lalmanirhat was a relation of the respondent was withdrawn.

No evidence has been adduced to show that the return of election expenses was incorrect, and we are in any case unable to see that the result of the election could be materially affected by submission of an incorrect return.

Evidence was adduced regarding the alleged bribery at Bhurungamari of Surendra Nath Rai, a polling agent of the petitioner, by Dinobandhu Sing and the respondent, of undue influence exercised by the respondent himself, Dinobandhu Sing and Rajani Mitra, by obstruction at polling booth at Bhurungamari, of undue influence exercised by Amulya Bhusan Sen Gupta, naib of Sonatuli, and of the payment of railway fares for two persons. In addition, five leaflets have been admitted in evidence, which, it is claimed, contain statements of fact in relation to the personal character and conduct of the petitioner which are false and which the respondent did not believe to be true.

We hold that we ought to be satisfied beyond all reasonable doubt that corrupt practices have been committed before recommending that the election be set aside. We note that nineteen of the petitioner's twenty-two witnesses are of his own community, and most of them have taken the sacred thread at his instance. We also note that the petition was presented originally at the instance of some of the petitioner's constituents of his own community. It further appears that the petitioner had the details of the incidents alleged and the evidence before him before filing the petition, but the instances given were such that the witnesses were scarcely bound down to give evidence on those particular facts.

As to the first instance of the alleged payment of railway fares we notice that out of some nineteen cases alleged the names of two persons only were given by the respondent on the first day of hearing, and of these only one has been examined as a witness. There is no corroboration of his story which is denied categorically. We find it not proved.

As to the second instance given, namely, the payment of one rupee to Taramohon Paramanik, we find that the story given by a single witness is improbable and uncorroborated, and we are unable to accept it.

Regarding the alleged bribery of Surendra Nath Rai, we find that the evidence is improbable, the witnesses interested, and the circumstances incredible, and we are the less disposed to accept it owing to the fact that the name of the person who is alleged to have offered the bribe was not revealed until the first day of hearing.

As to the obstruction of voters at Bhurungamari we have to note that none of the persons alleged to have been obstructed was named until the first day of hearing, and of the eleven persons named then only six were examined. The obstruction is alleged to have taken place under the very eye of the Presiding Officer, who has denied the allegations, and several of the witnesses admit that they did in fact vote. We are unable to accept the evidence on this point.

The allegation of undue influence by the naib Amulya Bhusan Sen Gupta is more substantial. He is alleged to have attempted to influence the result of the election by letters to some leading jotedars, by verbal requests and by appearing in person at the polling station at Bhurungamari.

One of the letters written by the naib has been produced and is admitted by him. The language is unexceptionable, but it states that it is written by the order of the manager of the pargana. It requests the addressee to use his influence on such voters as are amenable to it and forwards a list of names. The recipient of the letter does not say that he was in any way threatened and there is no evidence of any verbal threats.

The respondent had written to the naib before the letter was issued, and there can be no doubt that the naib was inclined to use his influence for him personally, as well as because the manager of the pargana had directed him. The respondent is a retained pleader of that estate and the manager of the pargana might very well feel that the interest of the estate would be well served if the respondent were elected. We feel that to decide whether the influence, undoubtedly exercised on behalf of the respondent by his wish, was undue influence, depends on whether there was any attempt to coerce voters. In this instance the letters were addressed to certain jotedars of the Baharbund pargana whose position is such that the landlord can exercise practically no restraint over them. Had the letters been addressed to ordinary tenants we should be inclined to hold that there was a real attempt to exercise undue influence, but taking into account the position of the addressees, the absence of any threats and the tone of the letter, and holding that the landlord is not precluded from exercising his influence to persuade voters, provided that he does not threaten them, we hold that in this instance the naib's action falls short of undue influence.

It has been admitted that the naib was also present at the respondent's request in and outside the enclosure at the polling station at Bhurungamari. The naib was not a voter and he can only have gone to support the respondent's candidature by his presence. We strongly disapprove of his action in this matter, but we find again that there is no evidence of any attempt to coerce any particular voter, and we are therefore compelled to find in this instance also that his action did not amount to undue influence.

The publication of the leaflets is admitted by the respondent The leaflet headed "Bande Mataram" does not appear to refer to the petitioner, nor does the leaflet headed "An appeal to the voters" under the signature of Ishan Chandra Chakravarty. That headed "Opinion of Rai Sahib Panchanan Barma regarding the amendment of the Bengal Tenancy Act" merely gives the views of the petitioner as expressed in the report of the Select Committee appointed by Government in 1921 and quotes the authority. We see no mis-statements in this. The leaflet headed "An appeal to the non-Muhammadan voters of Kurigram and Gaibandha" contains the statement, "none of the members so far elected by you has really paid any heed to your wants and complaints." We find that this cannot be held to be a false statement in relation to the personal character or conduct of the petitioner, nor can we hold it false when considered from the point of view of the respondent.

The leaflet headed "An appeal to the voters" contains, it is said, a transcript from the paper "Atma-Sakti". This states that the deeds of the petitioner have caused shame, annoyance and insult to the people of Rangpur and that he has blackened their faces. A number of instances are quoted in which the petitioner was stated to have been absent when a division was taken in the Council or to have voted in what the writer considered was a wrong way. Other expressions are also used in regard to the political conduct of the petitioner. We find on a consideration of the reports of the Legislative Council that from the point of view of the publisher neither the statements of fact nor the opinions expressed can be taken to be false. We further find that the statements and opinions expressed regarding the character and conduct of the petitioner clearly refer to his character and conduct in his capacity as a legislator and not as a man.

We, therefore, find that the allegations of corrupt practices have not been substantiated and that there are no grounds for declaring the election void. We, therefore, report that in our opinion the respondent Babu Jatindra Nath Chakrabutty has been duly elected. We recommend that the petition should be dismissed and that the petitioner should pay the respondent's costs which we assess at rupees five hundred and fifty-nine.

Insert the following as Appendix No. 25 :—

Appendix No. 25.

Travelling, etc., allowances of Civil Officers serving under the Secretary of State, the Government of India, or the High Commissioner for India when on duty in Europe or America.

The pay of officers serving under the Government of India who may be deputed to work in Europe or America is governed by Fundamental Rule 51.

An officer who elects to consume leave on average pay during a period of duty out of India may be granted an honorarium equal to one-sixth of his Indian pay for the period in question. He will be eligible for compensatory or travelling allowances in addition under the rules below as if drawing pay under Fundamental Rule 51.

The following regulations have been approved to govern the grant, under the authority of the Secretary of State for India, of travelling and other allowances. They do not apply to cases governed by special rules, *e.g.*, study leave, forest tours, etc.

They take effect from 1st October 1924, and are subject to review from time to time.

Section I.—Classification of officers.

1. For the purposes of these rules officers are divided into classes as under :—

(*a*) Indian Services.—According to the classification in Supplementary Rule 17 to the Fundamental Rules.

(*b*) Officers serving under the Secretary of State or the High Commissioner :—

First Class—Administrative and higher executive officers.

Second Class—Other executive and clerical officers.

Third Class—Other officials.

2. Military officers, etc., if paid at civil rates, are classified under these rules as follows :—Commissioned officers, first class, warrant officers, second class, other ranks, third class. If paid at military or naval rates their allowances are governed by Army or Navy Regulations.

Section II.—Compensatory Allowance.

3. Subject to the provisions of rules 4 and 5, officers who are sent from India on deputation may be granted a compensatory allowance at the following rates from date of landing in this country to date of re-embarkation for India :—1st class, 16*s.* 8*d.* a day; 2nd class, 12*s.* 6*d.* a day ; 3rd class, 8*s.* 4*d.* a day.

4. If an officer is permitted to take leave during his deputation, or to delay his embarkation for India at the conclusion of his deputation by taking leave, payment of compensatory allowance will cease during the period of leave.

5. An officer who is eligible for a compensatory allowance under this section may be granted halting allowance under section IV, in lieu thereof, if to his advantage, in respect of necessary absences on duty away from headquarters.

6. Officers placed on deputation while on leave in this country may be granted a compensatory allowance at the rates prescribed in rule 3 if they can show that they are put to extra expense in the matter of accommodation through being placed on duty. They will draw halting allowance in lieu thereof in respect of necessary journeys on duty away from headquarters.

Section III.—Travelling Expenses.

7. Travelling expenses when admissible are granted as follows where actually incurred :—

First Class—First class railway or steamer fare.
Second Class—Second, if available, otherwise third.
Third Class—Third Class.

8. In the case of cross-channel passagers second class officers may travel 1st class and third class officers 2nd.

9. Only the cost of return tickets is allowed when such can be taken.

10. An officer unless otherwise instructed is expected to take up his headquarters at his place of work, and will not be refunded the cost of journeys (other than the first and last) between his home or place of residence and his headquarters.

11. Except as provided in rule 11A necessary incidental expenses, such as taxi or cab fares, motor hire, etc., may be passed by the Accountant-General, India Office, or the Chief Accounting Officer to the High Commissioner at their discretion. The extra cost of sleeping berths or seats in Pullman cars will not be allowed elsewhere than in America without the sanction of the Secretary of State in Council.

11-A. Officers entitled to 2nd class passages who are deputed to the United Kingdom receive in respect of journey from port of embarkation to their homes and *vice versa* the following allowance in lieu of refund of incidental expenses under rule 11, namely, £15 for each journey if the officer travels alone and £1 for each journey if he is accompanied by his wife or family.

12. An officer ordered to travel by the overland route to or from India on duty may be granted, in addition to travelling expenses, an inclusive sum of £1 as travelling allowance for the journey between Marseilles and the United Kingdom.

Section IV.—Halting Allowance.

13. Officers travelling on duty in the United Kingdom may, when away from headquarters, draw in addition to travelling expenses under section III halting allowance at the rates shown in the following table. These rates are not intended to meet the whole cost of subsistence when absent from home or headquarters, but only the extra expenses necessarily incurred through such absences—

A.—United Kingdom.

14. The above rates will not ordinarily be admissible for more than one month in any one place. They may be varied in the case of attendance at Imperial and International conferences, etc.

15. No halting allowance can be drawn for any period during which an officer is entertained at the expense of the state or where subsistence is otherwise provided, *e.g.*, on board ship.

Appendix to India Office Travelling, etc., Allowance Rules.

Section I.—Classification of Officers.

1. In case of doubt the head of a department may decide the classification of an officer.

Section II.—Compensatory Allowances.

2. With reference to rule 6, if an officer's residence is at a distance from his headquarters and he is committed to its occupation, heads of departments may at their discretion sanction the cost of railway travelling (at season ticket rates if possible) between such residence and headquarters, provided that this course will not cost more to Government than the grant of compensatory allowance under rule 6 and that it will not interfere with the officer's duty.

Section III.—Travelling Expenses.

3. In case of doubt the head of the department may decide what is an officer's headquarters.

4. With reference to rule 10 see remarks above under section II.

Candidates.

5. Candidates for appointments who appear before Selection Committees or Medical Boards are not ordinarily entitled to their expenses for such attendance. In the following cases, however, third class railway fares are admissible :—

(*a*) Candidates already in the public service of this country.
(*b*) Persons possessing technical or other special qualifications for an appointment who are invited to an interview by this office.
(*c*) Where the Board of Education or other public body or expert authority employed to select an officer desires expenses to be granted.

Where the status of the officer is such that he would be granted railway fare of higher class than third if he were in the service of the Secretary of State, the Government of India or the High Commissioner, and the circumstances of the case seem to require this concession, the head of a department may at his discretion allow such higher fare.

6. In other special cases expenses may be granted upon the authority of heads of departments within the limits of their powers of sanction.

7. Mechanics and other persons of similar status may, in addition, be granted the amount of any wages forfeited by them for attendance at this office under the orders of the head of the department.

Officers undertaking work at their own request.

8. In cases where officers on leave undertake work at their own request, a refund of actual and necessary expenses may be granted, subject to the sanction of the Secretary of State in Council or of the High Commissioner, where such duty involves travelling, but no other expenses (*e.g.*, hotel bills) or allowances are admissible, unless this is specifically recommended by the officer's Local Government or the Government of India, as the case may be.

NOTIFICATION.

No. 8T.-Marine—The 9th May 1927.—The following revised rules regarding the appointment of candidates to the Bengal Pilot Service are published for general information, in supersession of those published with notification No. 127 Marine, dated the 22nd August 1921.

BENGAL PILOT SERVICE.

Rules for the appointment of candidates to the Bengal Pilot Service.

Appointments to the Bengal Pilot Service are made on behalf of the Government of India by the Government of Bengal and by the High Commissioner for India in the following manner :—

A.—APPOINTMENTS BY THE GOVERNMENT OF BENGAL.

1. The appointments made by the Government of Bengal are ordinarily limited to natives of India. For the purpose of this rule a native of India means any person domiciled in British India and born of parents habitually resident in India and not established there for temporary purposes only.

2. In any year in which it is proposed to make appointments locally to the Bengal Pilot Service, a competitive examination will be held in or about the month of March, and six months' previous notice of the examination will be published in the *Calcutta Gazette* specifying the number of vacancies to be filled up. The successful candidates will be appointed in order of merit ; but no candidate will be appointed who does not satisfy the examiners or who, in other respects, does not come up to the requirements of the following rules.

3. A candidate must produce satisfactory evidence to show that—

(*i*) he is not less than 18 or more than 22 years of age on the date of the examination : Provided that an intending candidate, who, on the 15th of March of any year in which no examination is held, is not more than 22 years of age and has fulfilled the conditions of service required, shall not be debarred on account of being over the prescribed age from appearing at the next examination ;

(*ii*) he has passed the Matriculation Examination of an Indian University, or the Cambridge Junior Certificate Examination, or some other public examination regarded as equivalent, or, in the alternative, attended a recognised school, and was, at the date of leaving school, a member of the class preparing for such examination ;

(*iii*) he has served at sea for four years in a merchant vessel employed in foreign trade as a seaman or apprentice, and his conduct on board has been satisfactory ;

(*iv*) he is of good health and physically fit to work as a pilot and is of good moral character.

4. Candidates will be examined in Navigation and Seamanship up to the standard of a second mate in the Mercantile Marine, and successful candidates will, before being appointed, have to undergo a further medical examination as to their physical fitness by the Medical Board sitting at Calcutta.

B.—APPOINTMENTS BY THE HIGH COMMISSIONER FOR INDIA.

(1) The Government of Bengal will use every endeavour to ascertain the existence of suitable local candidates before asking the High Commissioner for India to make appointments in England.

(2) In the case of appointments made by the High Commissioner for India preference will be given, *ceteris paribus*, to candidates who have passed through one of the training ships, *Worcester* and *Conway*, or at the Pangbourne Nautical College, followed by a course on a sea-going training ship or in the Royal Naval Reserve, or both.

(3) Candidates for the High Commissioner's appointments must be not less than 18 and not more than 22 years of age.

(4) Every candidate must produce satisfactory evidence as to age and character, and selected candidates are required to appear before the Medical Board at the India Office for examination as to their physical fitness for the work of a pilot in a tropical climate.

(5) A selected candidate, if passed by the Medical Board, will receive a first class passage to Calcutta and an outfit allowance of £30. If he resigns or leaves the service before he has served five years, he will be required to refund the cost of his passage to India and the outfit allowance, unless his resignation is due to ill-health certified by a Medical Board sitting at Calcutta. He will have to give an undertaking with two sureties for such refund. If he is a minor, a similar undertaking will be required from his father, guardian, or near relative with one surety.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 28th March 1927 :—

LEGISLATIVE ASSEMBLY BILL NO. 28 OF 1927.

A Bill to amend section 96 of the Code of Civil Procedure, 1908, for a certain purpose.

WHEREAS it is expedient to amend section 96 of the Code of Civil Procedure, 1908, for the purpose hereinafter appearing; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Code of Civil Procedure (Amendment) Act, 192 . V of 1908.

Amendment of section 96, Act V of 1908

2. To section 96 of the Code of Civil Procedure, 1908, the following sub-section shall be added, namely :— V of 1908.

"(4) No appeal shall lie from the decision of any Court the pecuniary limits of whose jurisdiction exceed two thousand rupees, or of any other Court specially designated in this behalf by the Local Government, determining under section 47 an objection by a judgment-debtor to the execution of a decree for money on the ground that the decretal amount has been paid or adjusted in whole or in part, if the amount claimed to have been paid or adjusted does net exceed, in the case of such first-mentioned Court, five hundred rupees, or, in the case of such other Court, two hundred rupees."

STATEMENT OF OBJECTS AND REASONS.

In paragraph 2 of Chapter 30 of their Report the Civil Justice Committee recommend *inter alia* that in cases where orders in execution of money decrees are passed under section 47 of the Code of Civil Procedure, 1908, on pleas by the judgment-debtor that payment or part payment had been made, there should be no appeal from such orders when passed by specially empowered Munsifs or corresponding officers up to a limit of Rs. 200, and by Subordinate Judges or corresponding officers up to a limit of Rs. 500. The Bill seeks to give effect to this recommendation by an amendment of section 96 of the Code. As the Code, however, does not provide for the classification of Subordinate Courts, a limit of Rs. 2,000 has been adopted to indicate the difference between the two classes of Courts with final jurisdiction.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

THE following Bill was introduced in the Legislative Assembly on the 28th March 1927:—

LEGISLATIVE ASSEMBLY BILL NO. 30 OF 1927.

A Bill to amend the Indian Bar Councils Act, 1926, for certain purposes.

WHEREAS it is expedient to amend the Indian Bar Councils Act, 1926, for the purposes hereinafter appearing; it is hereby enacted as follows:— XXXVIII of 1926.

Short title.

1. This Act may be called the Indian Bar Councils (Amendment) Act, 1927.

Amendment of section 8, Act XXXVIII of 1926

2. In section 8 of the Indian Bar Councils Act, 1926 (hereinafter referred to as the said Act), sub-sections (*3*), (*4*) and (*5*) shall be renumbered as sub-sections (*5*), (*6*) and (*7*), respectively, and after sub-section (*2*) the following sub-sections shall be inserted, namely:— XXXVIII of 1926.

"(*3*) Entries in the roll shall be made in the order of seniority, and such seniority shall be determined as follows, namely:—

(*a*) all such persons as are referred to in clause (*a*) of sub-section (*2*) shall be entered first in the order in which they were respectively entitled to seniority *inter se* immediately before the date on which this section comes into force in respect of the High Court; and

(*b*) the seniority of any other person admitted to be an advocate of the High Court under this Act after that date shall be determined by the date of his admission or, if he is a barrister, by the date of his admission or the date on which he was called to the Bar, whichever date is earlier:

Provided that, for the purposes of clause (*b*), the seniority of a person who before his admission to be an advocate was entitled as of right to practise in another High Court shall be determined by the date on which he became so entitled.

(*4*) The respective rights of pre-audience of advocates of the High Court shall be determined by seniority:

Provided that the Advocate General shall have pre-audience over all other advocates, and King's Counsel shall have pre-audience over all advocates except the Advocate General."

Amendment of section 9, Act XXXVIII of 1926.

3. In sub-section (*4*) of section 9 of the said Act, after the words "any such application" the words "or to prescribe the conditions under which such persons shall be entitled to practise or plead" shall be inserted.

STATEMENT OF OBJECTS AND REASONS.

The Select Committee on the Indian Bar Councils Bill (which was passed as Act XXXVIII of 1926) inserted in clause 8 of that Bill the following provisions to regulate seniority and pre-audience among advocates :—

(1) Entries in the roll shall be made in the order of seniority and the seniority of each advocate shall be determined by the date of his admission to be an advocate or, in the case of a person referred to in clause (*a*) of sub-section (*2*), by the date on which he was admitted to be an advocate, vakil or pleader, as the case may be, of the High Court.

(2) Subject to any special orders which the High Court may think fit to make in individual cases, the respective rights of pre-audience of advocates of the High Court shall be determined by seniority :

Provided that the Advocate General shall have pre-audience over all other advocates, and King's Counsel shall have pre-audience over all advocates except the Advocate General.

These provisions were omitted from the Bill as finally enacted on the understanding that they would be circulated for opinion. This has now been done. The opinions received disclose a lack of unanimity. On the whole, however, the majority of the High Courts prefer that, subject to the preservation of rights existing at the time that the Bar Councils Act comes into force, seniority and pre-audience should be regulated in accordance with the recommendations in paragraphs 18 and 21 of the Indian Bar Committee's report which may be summarised as follows :—

"Both on the appellate and original sides, advocates who are barristers should take precedence *inter se* according to the dates of call to the Bar, advocates who are not barristers according to the dates on which they became entitled to practise in a High Court, and a member of the former class should take precedence over another advocate only if he was called to the Bar before the other became entitled to practise in a High Court. An advocate of one High Court enrolling in another should take precedence from the date he was first entitled to practise in a High Court, and a barrister whowas only called to the Bar after admission to practise in a High Court should take precedence from the date of admission to practise in a High Court."

The Bill gives effect to these recommendations. The opportunity has been taken to make a small amendment in sub-section (*4*) of section 9 of the Act of 1926, in consequence of criticisms during the debate in the Legislative Assembly on the 2nd September 1926.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 28th March, 1927:—

LEGISLATIVE ASSEMBLY BILL NO. 32 OF 1927.

A Bill further to amend the Indian Penal Code and the Code of Criminal Procedure, 1898.

WHEREAS it is expedient to make better provision for the protection of children against unlawful intercourse with them during their infancy; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Children's Protection Act, 192 .

Amendment of section 375, Act XLV of 1860.

2. In section 375 of the Indian Penal Code (hereinafter referred to as the said Code), in clause *Fifthly*, for the word "fourteen" the word "sixteen" shall be substituted. XLV of 1860.

Amendment of section 376, Act XLV of 1860

3. In section 376 of the said Code, the words beginning with "unless the woman raped" and ending with "or with fine, or with both," shall be omitted.

Insertion of new section 376A in Act XLV of 1860.

4. After section 376 of the said Code the following section shall be inserted, namely:—

Illicit married intercourse.

"376A. Whoever has sexual intercourse with his own wife, the wife not being under thirteen years of age and being under fourteen years of age, shall be punished with imprisonment of either description for a term which may extend to two years, or with fine, or with both."

Amendment of Schedule II, Act V of 1898.

5. (*1*) In Schedule II to the Code of Criminal Procedure, 1898, in the entry relating to section 376 of the Indian Penal Code— V of 1898. XLV of 1860.

(*a*) the first entry, namely:—

"376	Rape— If the sexual intercourse was by a man with his own wife not being under 12 years of age.	Shall not arrest without warrant.	Summons.	Bailable.	Not compoundable.	Imprisonment of either description for 2 years, or fine, or both.	Court of Session, Chief Presidency Magistrate or District Magistrate."

shall be omitted; and

(*b*) in the second entry for the figures "12" the figures "13" shall be substituted.

(*2*) In the same Schedule after the entries relating to section 376 the following entry shall be inserted, namely:—

"376A	Illicit married intercourse by husband with wife not under 13 and under 14 years of age.	Shall not arrest without warrant.	Summons.	Bailable.	Not compoundable.	Imprisonment of either description for 2 years, or with fine, or both.	Presidency Magistrate or Magistrate of the first class."

STATEMENT OF OBJECTS AND REASONS.

In the last Assembly I had given notice of my intention to introduce a Bill designed to protect married and unmarried girls below the age of 15. Subsequently, the Government introduced a similar Bill affording protection to girls below the ages of 13 and 14 within and outside marital relations. During the course of the discussion on this Bill the Hon'ble the Home Member gave an undertaking in the Assembly to circulate those clauses of my Bill which were not covered by the Government Bill. These clauses provided for a new offence of unlawful intercourse.

I have in this Bill sought to protect married girls between 13 and 14 and unmarried girls below 16, prescribing a smaller penalty in the former case. My object in protecting married girls up to 14 is this—

(*a*) It is a fact now sufficiently established that a majority of girls do not attain puberty in this country before that age; and the mere appearance of puberty is not the same thing as the attainment of sufficient physical development to enable them to endure the travails of maternity;

(*b*) Premature cohabitation is responsible for the appallingly high death rate in the case of infants before they are even 12 months old; which in several provinces averages 33 per cent.;

(*c*) It weakens the offspring that survive, weakens the mother and is responsible for the high death rate and low vitality of the people addicted to this evil;

(*d*) Early cohabitation is equally detrimental to the married couple; the husband suffers in his education, and so does the wife; while the family has to mourn frequent bereavement and suffers from the illness of its members.

In the case of unmarried girls the last Assembly had no objection to extending the protection to all minors even up to the attainment of their majority.

It is hoped that public opinion is now sufficiently aroused to the evils of early cohabitation and my Bill, if passed, will I hope act as a salutary deterrent upon persons who still remain addicted to a practice highly detrimental to the growth of a healthy and vigorous nation.

DEPARTMENT OF AGRICULTURE, BENGAL.

Monthly Weather and Crop Report of Bengal for April 1927.

I. **Character of the season.**—The weather was dry during the first week, after which there was light to moderate rainfall in West and North Bengal and heavy precipitation in parts of East Bengal. The usual rainfall statement is appended.

II. **Progress of agricultural operations.**—Sowings of jute and paddy were much advanced in East and North Bengal and were in progress in West Bengal. Weeding also continued under favourable conditions.

III. **State of standing crops.**—The condition of standing crops was generally fair, except in Bakarganj and in parts of the Chittagong Division.

IV. **Prospects and probable outturn.**—The prospects of sugarcane, *til*, jute and deep-water paddy were generally hopeful. The total outturns of wheat and different spring oilseed crops were 81 and 78 per cent., respectively, of the normal for the province as a whole.

V. **Damage to standing crops.**—No damage was reported from any part of the Province except from the districts of the Chittagong Division, where heavy rain accompanied by hail caused some damage to the standing crops.

VI. **Condition of agricultural stock.**—The condition of agricultural stock was on the whole satisfactory. Stray cases of cattle-disease were, however, reported from six districts.

VII. **Failure of pasturage and fodder.**—No insufficiency of fodder was reported from any part of the Presidency.

VIII. **Prices of food-grains.**—During the second fortnight of the month the retail price of common rice of the cheapest quality fell in four districts, rose in eleven and remained stationary in the rest of the Presidency.

IX. **Condition of agricultural population.**—The condition of agricultural population was, on the whole, fair.

For the week ending on the 11th May 1927.

Summary.—During the week the rainfall was generally light to moderate in West and North Bengal while in East Bengal the fall was moderate to heavy. The recent rain has been helpful to the sowings of jute and paddy generally except in some East Bengal districts where the operations on low land have been affected by excessive rain. Harvesting of spring crops is over. The condition and prospects of standing crops are generally satisfactory but for some damage caused by excessive rain and hail in places. The average price of common rice for the Province has slightly risen as compared with that of the previous week.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

EXCISE.

DARJEELING, THE 12TH MAY 1927.

RESOLUTION—No. 135Ex. T.-A. I.

Minister-in-charge: The Hon'ble Mr. B. Chakravarti.

The Government of Bengal in the Ministry of Excise have recently had under consideration the question of the excessive consumption of raw opium in the Calcutta area (in which is included the suburbs and the towns of Howrah and Bally) and in the industrial areas of Serampore and Barrackpore, and have decided to appoint a Committee to investigate conditions in these places and suggest means, if possible, for the reduction of the excessive consumption.

2. The following gentlemen will form the Committee :—

(1) Mr. J. N. Roy (late officiating Commissioner, Rajshahi Division).

(2) Rai S. K. Raha Bahadur (officiating Commissioner of Excise and Salt, Bengal).

(3) Reverend Herbert Anderson } (nominated by the Calcutta
(4) Rai Haridhan Dutt Bahadur } Temperance Federation).

3. The attention of the Committee will be directed to the following points.

In 1925-26 the consumption of raw opium to population in the above-mentioned areas was as follows :—

			Seers.	Population.
Calcutta, Howrah and Bally		...	11,545	1,350,756
Serampore	...	...	1,453	171,384
Barrackpore	...	...	2,149	337,688

The rate per 10,000 of population per annum was therefore in Calcutta, Howrah and Bally 85·4 seers; in Serampore 84·7 seers; in Barrackpore 63·6 seers. The standard recognised by the League of Nations as a legitimate one for the consumption of opium from a medicinal point of view is approximately 6 seers per 10,000 of population. This standard, however, is only applicable to countries possessing a highly organised system of medical assistance Such conditions do not prevail in Bengal at present, and the Secretary of State has laid down that in India 30 seers of opium per annum per 10,000 of population may be taken as an approximate legitimate standard. This standard is exceeded, and largely exceeded, in the three areas to which attention is directed.

4. The Committee will make such enquiries, local or otherwise, as may seem useful to them and will take the evidence of such members of the public as desire to furnish it. Government are anxious to have a report particularly on the following points :—

(1) What proportion approximately of the opium sold is consumed by people solely for medicinal purpose and what proportion is consumed otherwise, *i.e.*, as an intoxicating drug.

(2) To what extent the consumption in the areas concerned is really an evil, *i.e.*, a menace to the health, morality and social well-being of the community.

(3) To what extent opium is administered by parents to young children and how far this affects the health of the child population.

(4) What remedies are possible in order to reduce the excessive consumption of opium, and whether any method of registration of opium consumers is advisable or practicable.

ORDER—Ordered that a copy of the resolution be forwarded to the Commissioner of Excise and Salt, Bengal, and the members of the Committee for information.

By order of the Government of Bengal

(Ministry of Excise),

R. N. REID,

Secretary to the Government of Bengal (*offg.*).

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Wheat Crop of Bengal, 1926-27.

[NOTE.—On an average of the five years ending 1924-25, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1924-25, averaged (*a*) 40·7 and (*b*) 14·6 per cent., respectively.]

Character of the season.—As stated in the preceding forecasts, the weather at the outset was generally favourable for tillage and sowings, but the subsequent drought somewhat checked the growth of the crop. Occasional rainfall in January and February was generally beneficial, though rather too heavy in places. On the whole the season was a fairly favourable one for the crop.

Acreage.—According to the estimates of District Officers, the total area sown is 129,300 acres this year as against 130,500 acres last year.

Outturn.—The provincial outturn as worked out from the district estimates is 81 per cent. of the normal as against 69 per cent. last year.

Taking the normal yield to be 8⅓ maunds per acre, the gross yield of the crop for the Province is estimated at 32,100 tons this year as against 27,600 tons last year.

At the end of April, the average wholesale price of wheat at the principal marts of the Province was Rs. 6-5 per maund or about 9 and 5 per cent. lower than the prices ruling at the corresponding periods of last year and the year preceding, respectively. The average wholesale price of common rice at the principal marts, on the other hand, was Rs. 7-5-9 per maund or about 3 and 5 per cent. higher than the prices ruling at the corresponding periods of last year and the year before, respectively.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Forecast of the Spring Oilseed Crops of Bengal, 1926-27.

[NOTE.—On an average of the five years ending 1924-25, the area under linseed in Bengal has represented some 3·6 per cent. and that under rape and mustard 12·4 per cent. of the total areas under these crops in British India].

Character of the season.—The weather during the early stage of the crops was generally favourable owing to adequate rainfall up till the middle of October. Subsequent drought up to the third week of December affected the growth of some early-sown crops, but heavy rainfall in the end of December and the middle of January and February, though detrimental to the crops then maturing, was generally beneficial especially to late-sown crops. Dry weather in March provided favourable harvesting conditions for late crops. On the whole a fair crop has been reaped for the province.

Acreage.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 9 16,500 acres this year as against 900,100 acres last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 78 per cent. of the normal as against 55 per cent. last year.

Taking 5¾ maunds as the normal rate of yield per acre for linseed, 6 maunds for rape and mustard and 4½ maunds for other oilseeds, the total yield of the crops for the province is estimated at 156,900 tons this year as against 106,300 tons or about 48 per cent. higher than last year.

Director of Agriculture, Bengal.

The following subject is selected for the essay for the Jogendrachandra Ghosh's Research Prize in Comparative Indian Law for the year 1927 :—

" A comparative study of the Law of Evidence according to the Smrities. "

The attention of the intending candidates is expressly called to the following conditions laid down for the prize :—

(*i*) By comparative Indian Law shall be meant the Hindu Smriti Sastra called " Pyabaharkhanda " and a comparison of the standard Sanskrit authorities on the subject with British Indian Law as contained in Parliamentary Statutes, Regulations and Acts of the Indian Legislative Council, and the law as laid down in leading cases. The study, which it shall be the object of the prize to encourage, is the history of the Hindu Smiriti Sastra as it existed at and from the time when India came under British rule and how and to what extent it has been altered under British influence, regard being had not only to the existing Statutes, Regulations and Acts, but also to those which, having been in operation for a time, have now been repealed or become obsolete and regard being also had not only to the existing leading cases, but to cases which were considered leading at one time, but have now been overruled, and how and to what extent such alteration has affected Hindu society.

(*ii*) The essay may deal with the whole of the Indian Comparative Law as before defined or with part or parts thereof ; but in no case shall an essay be entitled to competition which in any way attacks the religious belief, usages or institution of His Majesty's subject.

(*iii*) By Adhyapak shall be meant scholars of the Smiriti Sastra, students of the Smiriti in the Government Sanskrit College in Calcutta, and in the tols of indigenous Brahmanical schools which send in candidates for the title examinations held in that College, and students in other similar institutions in India.

(*iv*) Every candidate for the prize shall be required to indicate generally in a preface to his thesis, and specially in notes, the sources from which his information is taken, the extent to which he has availed himself of the work of others and the portion of the thesis which he claims as original. He shall further be required to state whether his research has been conducted independently, under advice or in co-operation with others, and in what respects his investigations appear to him to tend to the advancement of knowledge.

(*v*) Successful candidates shall be required to publish their essays, and if necessary they shall receive help from the University for the purpose.

(*vi*) The essay or essays shall be written, either in English or in Bengali, but if any competitor sends in an essay in vernacular language other than Bengali he shall be bound to furnish English translation thereof.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 28th March 1927 :—

LEGISLATIVE ASSEMBLY BILL NO. 29 OF 1927.

A Bill further to amend the Indian Divorce Act for a certain purpose.

WHEREAS it is expedient further to amend the Indian Divorce Act for the purpose hereinafter appearing; It is hereby enacted as follows :— IV of 1869

Short title

1. This Act may be called the Indian Divorce (Amendment) Act, 1927.

Insertion of new section 17A in Act IV of 1869

2. After section 17 of the Indian Divorce Act the following section shall be inserted, namely :— IV of 1869

Appointment of officer to exercise duties of King's Proctor

"17A. The Governor General in Council may appoint for each High Court of Judicature established by Letters Patent an officer who shall, within the jurisdiction of the High Court for which he is appointed, have the like right of showing cause why a decree for the dissolution of marriage should not be made absolute or should not be confirmed, as the case may be, as is exercisable in England by the King's Proctor, and the Governor General in Council may make rules regulating the manner in which the right shall be exercised and all matters incidental to, or consequential on, such exercise."

Under sub-section (*4*) of section 1 of the Indian and Colonial Divorce Jurisdiction Act, 1926 (16 & 17 Geo. 5, Ch. 40), proceedings before a High Court in India, in exercise of the jurisdiction conferred by that Act, are to be conducted in accordance with rules made by the Secretary of State in Council of India with the concurrence of the Lord Chancellor. These rules are required to provide *inter alia* for conferrring on such officials as may be appointed for the purpose within the jurisdiction of each High Court the like right of showing cause why a decree *nisi* should not not be made absolute as is exercisable in England by the King's Proctor under sections 181 and 182 of the Supreme Court of Judicature (Consolidation) Act, 1925 (15 & 16 Geo. 5, Ch. 49). These provisions apply in cases where the parties concerned are British subjects domiciled in England or in Scotland. The Bill proposes to make provision in the Indian Divorce Act for the appointment of an official to perform similar functions in respect of persons domiciled in India.
